

AVG Managed Workplace Integration

Streamline your backup management with AVG Managed Workplace and Intronis

Managed Workplace® 2014

AVG Managed Workplace (formerly Level Platforms Managed Workplace) is a comprehensive next generation remote monitoring and management (RMM) platform. Intronis Cloud Backup and Recovery provides a local and offsite backup solution for MSPs to sell to the very same customers. Our integration with AVG's monitoring solution allows seamless tracking of backup and recovery statuses.

MSPs using AVG Managed Workplace will benefit from a complete managed services platform that enables them to monitor backup and recovery information as well as a wide range of other IT functions through a single, web-based dashboard.

Benefits of the Integration

- Get key backup and recovery metrics and real-time monitoring and alerting
- Access entire view of service offerings with customized dashboard
- Streamline work and reduce redundancy
- Automate and provide transparency across your entire managed services operation

See All, Manage All.

ABOUT INTRONIS MSP SOLUTIONS BY BARRACUDA

Intronis MSP Solutions by Barracuda is the first single-source vendor to combine security and backup solutions tailored specifically for managed service providers. Intronis enables MSPs to centrally deploy and manage a broad portfolio of services, protecting business-critical files, folders, email, applications, servers and networks — both locally and in the cloud — through a single-pane-of-glass management console. MSPs benefit from core PSA and RMM integrations, as well as a true partnership with Intronis, through fixed pricing plans and partner enablement tools that help MSPs accelerate growth and increase profits.
